REGION

MENA · Global

Three teams. *One operating system* for paid growth.

01 / Ads Management

The performance engine.

- Account structure audit
- Campaign strategy
- Scientific ad testing
- Daily testing & management
- KPI analytics & reporting
- Feedback loop to creative team

02 / Ad Creative

The supply of winners.

- Creative strategy audit
- Creative strategy
- New ad creatives
- Content creation
- Raw files included
- Performance analysis & strategy

03 / Brand Strategy

The long-term flywheel.

- Full-funnel audit
- AOV maximization
- CVR maximization
- CLTV maximization
- Offer audit + consulting
- Brand expansion

Creative *strategy.*

A structured, hypothesis-driven approach to producing ads — so winners are engineered, not stumbled upon.

We replace luck with a *repeatable test loop*.

✗ LUCK-BASED TESTING

~~Run ads. Hope one works.~~

Without a structured test, every ad is a guess. You can't tell what's driving performance, and you can't repeat what wins.

◆ ITERATIVE SPLIT TESTING

Test systematically. Scale winners. Iterate.

Each ad is a hypothesis. We isolate the variable, read the signal, and feed it back into the next round of production.

ANGLE

TEST

FORMATION

ITERATION

Three variants per concept. One variable changed at a time.

VERSION 01 · HOOK

Same offer, isolated hook treatment.

VERSION 02 · FORMAT

Same hook, different visual format.

VERSION 03 · OFFER

Same format, isolated offer wording.

The same logic applied to statics.

VERSION 01 · HEADLINE

Headline-led, product-secondary.

VERSION 02 · VISUAL

Product hero, copy minimal.

VERSION 03 · PROOF

Social proof front-loaded.

Every winner compounds the next.

01

Test the hypothesis

Three variants ship together, each isolating a single creative lever — hook, format, or offer.

02

Analyze the signal

Spend-weighted performance is read at the variable level, not the ad level. Winners are tagged by lever.

03

Iterate into supply

Winning levers feed back into the brief. The next batch ships fewer guesses and more known signal.

Ads *management.*

The daily mechanics — production cadence, testing, analytics, and the communication rhythm that keeps the engine accountable.

From onboarding to in-market *in 30 days.*

Media buying and creative *talk every week*

■

- 01 **Ad testing**
Three-variant test ships against a single hypothesis.
- 02 **Ad analysis**
Lever-level read on what drove performance — not vibes.
- 03 **Creative feedback**
Findings briefed back to creative as concrete guidance, not "do better."
- 04 **Iteration**
Next batch ships with the winning lever fixed and a new variable in play.

A predictable rhythm. Nothing left to chance.

MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY
Text update Weekend signal and the week's priority. Bi-weekly call Strategy review, every other week.	Daily Slack Live thread, async always-on. CHANNEL

Meta

An *extension* of your team — not another vendor.

01

Full transparency

24/7 access to real-time performance dashboards. No hidden metrics — raw, honest data on your growth.

02

Scientific testing

Every ad we launch is a data-backed hypothesis. We iterate on what the market tells us, not on creative hunches.

03

Proactive communication

Daily Slack access and bi-weekly strategy calls. We act as an extension of your team, not just another vendor.

04

Scalable growth

Systems built to lower CAC while scaling spend — focused on the long-term health and profitability of your brand.
